Welcome to UXDesignFlow Support

Frequently Asked Questions (FAQ)

1. How do I get started with UXDesignFlow? To get started, open the app and browse through the thematic cards to explore the different phases of app development. Each card provides guiding questions and tips to help you navigate through the app creation process.

2. How can I save my notes and reflections? Each card has a dedicated space for your notes. Simply tap on the card and it will flip over, revealing the section for annotations: here you can add your thoughts and save them.

3. Can I access my work on different devices? Yes, thanks to iCloud synchronization, you can resume your work on any iOS device associated with your Apple ID, keeping all your annotations and progress synced.

4. How do I use the sharing features? To share the content of the cards, use the dedicated sharing button to export the information via email, messages, or save it to your device.

Technical Support

If you encounter technical issues or have specific questions not covered in the FAQ, please send an email to enricoferro@inwind.it. We strive to respond to all inquiries within 24 hours on business days.

Feedback and Suggestions

Your feedback is crucial to our continuous improvement. If you have suggestions on how we could improve UXDesignFlow, please send us your comments via email at enricoferro@inwind.it.

Thank you for choosing UXDesignFlow for your journey in mobile app development!
